CHRISTOFLE OVERVIEW

Anchored in the time-honored tradition of silversmithing, the Maison Christofle has been creating beautiful, useful objects since 1830, objects that perfectly reflect the French art of living.

Since 1830
In 1830, Charles Christofle, the House’s founder, created a jewelry workshop under his own name. A visionary enamored of technological innovation, he revolutionized the world of silver by having the audacity to offer, in 1842, a new kind of silver-plating that he would elevate to an art for cutlery, tableware, decorative objects, sculptures, and more.

The Art of Sharing
Today, Christofle is reinventing conviviality and making the Art of Sharing a true Art of Living.

From Europe to the United States and Asia with more than 1,000 points of sale in the world, the brand’s know-how now spans five universes: the conviviality of dining, exchanges around the bar, the taste for beauty through decor, the pleasure of gifting through jewelry and accessories, and a complete collection for children. Christofle accompanies hedonists in every moments of conviviality by offering durable, refined, and elegant silverware products of the best quality.
